

Bugs: acis_build_badpix

Bugs

1. *Tool fails if `obsfile` needed and not supplied (01 Dec 2006)*

The `obsfile` is a necessary input when doing the CALDB lookup. If `acis_build_badpix` requires this parameter and it is empty, the tool segmentation faults.

The Chandra X-Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
