

Bugs: caldb

Bugs

1. *The calFindFile routine fails in slsh. (27 Jul 2007)*

```
slsh> require("caldb");  
slsh> file = calFindFile("chandra","acis","-","-", "now","-", "DET_GAIN");  
# 29936: Received error signal SIGSEGV-segmentation violation.  
# 29936: An invalid memory reference was made.  
# 29936: segmentation fault: caldb (1) is: exit_upon_error->  
NULL
```

The Chandra X-Ray Center (CXC) is operated for NASA by the Smithsonian Astrophysical Observatory.
